MUSIC AND STYLE

Seen here are a beautiful pair of lamps and bookends, perfect for a living room or bedroom where one wants to reflect an appreciation for timeless style, good taste and good music. The rich wood tone colors of the violin & harp are complimented with gilded gold, which never goes out of style. Each lamp comes with a black base. Black is an important element in design, signifying strength & importance, in addition, the correct use of black emphasizes the other colors and elements of the design. You'll notice that there are many examples throughout these pages using black colors in my designs.

All in all, the designs encompassing this catalog make for a nice mix not only of various mediums, but also textures and styles. Within these pages, you will find many collections in numerous mediums that will allow you to create your own unique style, and all in good taste...something that never goes out of style!
