A collection of ceramic bird figurines, including three candle holders (E, F, G) and two large roosters, set against a background of lit candles. The candle holders are green ceramic with ornate, branching bases adorned with small, colorful birds and flowers. The roosters are large, detailed figurines with vibrant yellow, blue, and red plumage. The background features two lit white candles in a simple holder, creating a warm, ambient light. The entire scene is set on a reflective surface, likely a table.
