Dining in Style!

In my travels around the world, I continue to seek out not only new & unique products and concepts, but also innovative uses of various mediums, often in unexpected ways. The flatwares on these pages are a case in point. I love the emerald jewel tones that come through the mother of pearl pieces shown on page 85, evoking a high degree of sophistication...and quite frankly...they feel great in your hands while at table!

For a party, the golden amber jeweled flatware pieces on page 89 are sure to impress your guests. Substantial both visually and in weight, these are perfect for a festive setting where opulence is desired. The cheese spreaders and the serving sets also make for terrific gifts.
